SKILLS

PROGRAMMING

Languages

- Advance: Python, Java
- Intermediate: C, • Novice: JavaScript

Technologies

- HTML • CSS •
- SQL

OTHERS

- Public Speaking
- Optimistic
- Commitment to work
- Exploring new technologies

EDUCATION

B. Tech, CSW(SE) Balaji Institute of Technology and science
2021-25 | warangal
CGPA: 7.20

Intermediate, MPC
Sri Venkateshwarajunior college
2019-21 | Karimnagar
Percentage: 89.6%

STATE

Sri Chaitanya e-techno school
2017-18 Mandamarri
Percentage: 9.0%

LANGUAGES KNOWN

- English • Hindi • Telugu

EXPERIENCE

AICTE-Advanced Data Analytics | dec 23- jan 24 | 6 weeks | powerbi

UpskillCampus | 4 weeks | jul 24-Aug 24

- Developed Quiz game using python

Skillcraft Technologies

Machine learning | 1 month internship

In the internship developed linear regression model, k-means clustering algorithm for a group of customers of a retail store
support vector machine to classify image

Codesoft | Aug 2024 - Sep 2021 | In codesoft java programming internship i had developed ATM interface

Student Grade calculator

Number Game

Python Full stack developer virtual internship | **EDUSKILLS**

AI : Transformative Learning | **TECHSAKSHAM**

PROJECT(S)

Mental Health Detection Using ML

Problem:

Over stress leads to depression and Anxiety, to know whether a person requires treatment or not analyzed by this test

The initial step is to collect the data

After collecting the data converted to numeric form

Then we have to preprocess the data and split into training and testing

After processing we can extract features and we can predict the mental illness

ACHIEVEMENTS

Successfully completed 6 internships

Giving Presentations : Participated in the college SRESTHA program

CERTIFICATIONS

Switching, Routing : By CISCO
Networks . By CISCO
CyberSecurity • By CISCO

Generative AI „ By IBM
Insta Marketing „ By Great
Learning

Information security: By Great Learning
